My 2011 Dodge Durango is at my local dealership due to the alternator and PCM going out while I was driving. I am now dealing with getting my money back because I was never notified of the recall until after I replaced it myself and now dealing with the dealership because they want to charge me for PCM when clearly the alternator fried it along with my battery. Dear Twitpic Community - thank you for all the wonderful photos you have taken over the years. We have now placed Twitpic in an archived state. I have a 2017 Durango GT that I brought July of 2018. It has been in the shop (Dodge/Chrysler) 5 times. The back LED lights went out, got that fixed. search titles only has image posted today bundle duplicates include nearby areas daytona beach (dab); florida keys (key); gainesville, FL (gmv); heartland florida (cfl); jacksonville, FL (jax); lakeland, FL (lal); north central FL (lcq); ocala, FL (oca); orlando, FL (orl); sarasota-bradenton (srq); south florida (mia); space coast, FL (mlb)
