

# Download Fao Drip Irrigation Manual

Drip irrigation is most suitable for row crops (vegetables, soft fruit), tree and vine crops where one or more emitters can be provided for each plant. Generally only high value crops are considered because of the high capital costs of installing a drip system. 6.1.2 Suitable slopes. Drip irrigation is adaptable to any farmable slope. Irrigation Manual Volume 2 Mod. 7 . Planning, Development Monitoring and Evaluation ... (FAO) concerning the legal or development status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. ... 10.
