

# Download Piecing Together Optimal Health Your Simple Guide To Wellness

Technology. Along with online training courses, webinars and materials, HRS is the sole developer, distributor and service provider of the web-based Health Risk Screening Tool. Cavin sustained a severe TBI that left him with less than a 10% chance of recovery beyond a persistent vegetative state. His mission is now to improve the standard model of neuro-rehabilitation by bringing together the top brain and nutrition experts of our time, sharing and organizing tools to optimize brain function, and working to improve hospital nutrition worldwide. Speakers: Jayne Warwick, Director, Market Insights, PointClickCare In this full-day session, participants will engage in a hands-on, interactive training session focusing on the proactive utilization of your Electronic Health Record (EHR) to produce defensible records for review. Successfully deploy transformations throughout your organization! 2Spark is an app using a powerful predictive algorithm to engage all your staff in transformation projects with a process lasting just 1 min a day, every day.
