

Download Thermo Orion Model 250 Manual

The Model 250Aplus has all the features of the 230Aplus plus 3 point auto calibration and RS232-C output for use with the Thermo Orion 900A printer or other serial peripherals. The Model 290Aplus adds concentration measurements and an internal datalogging function to make a truly versatile meter for pH or ISE analysis. Keypads give audible confirmation when pressed. Model 58802-00 (ORION 250A) is a pH/mV temperature meter with autocalibration. It includes all the features of the full-featured model 230A, plus it recalls calibration information at the touch of a button -- great for field work. The meter attaches directly to ORION printer 58819-70 (sold separately). Use this dissolved oxygen probe as the name implies, either in the lab or field. The Thermo Scientific Orion DO Probe for Lab or Field is durable and accurate, featuring automatic temperature compensation and convenient screw-on membrane caps.
